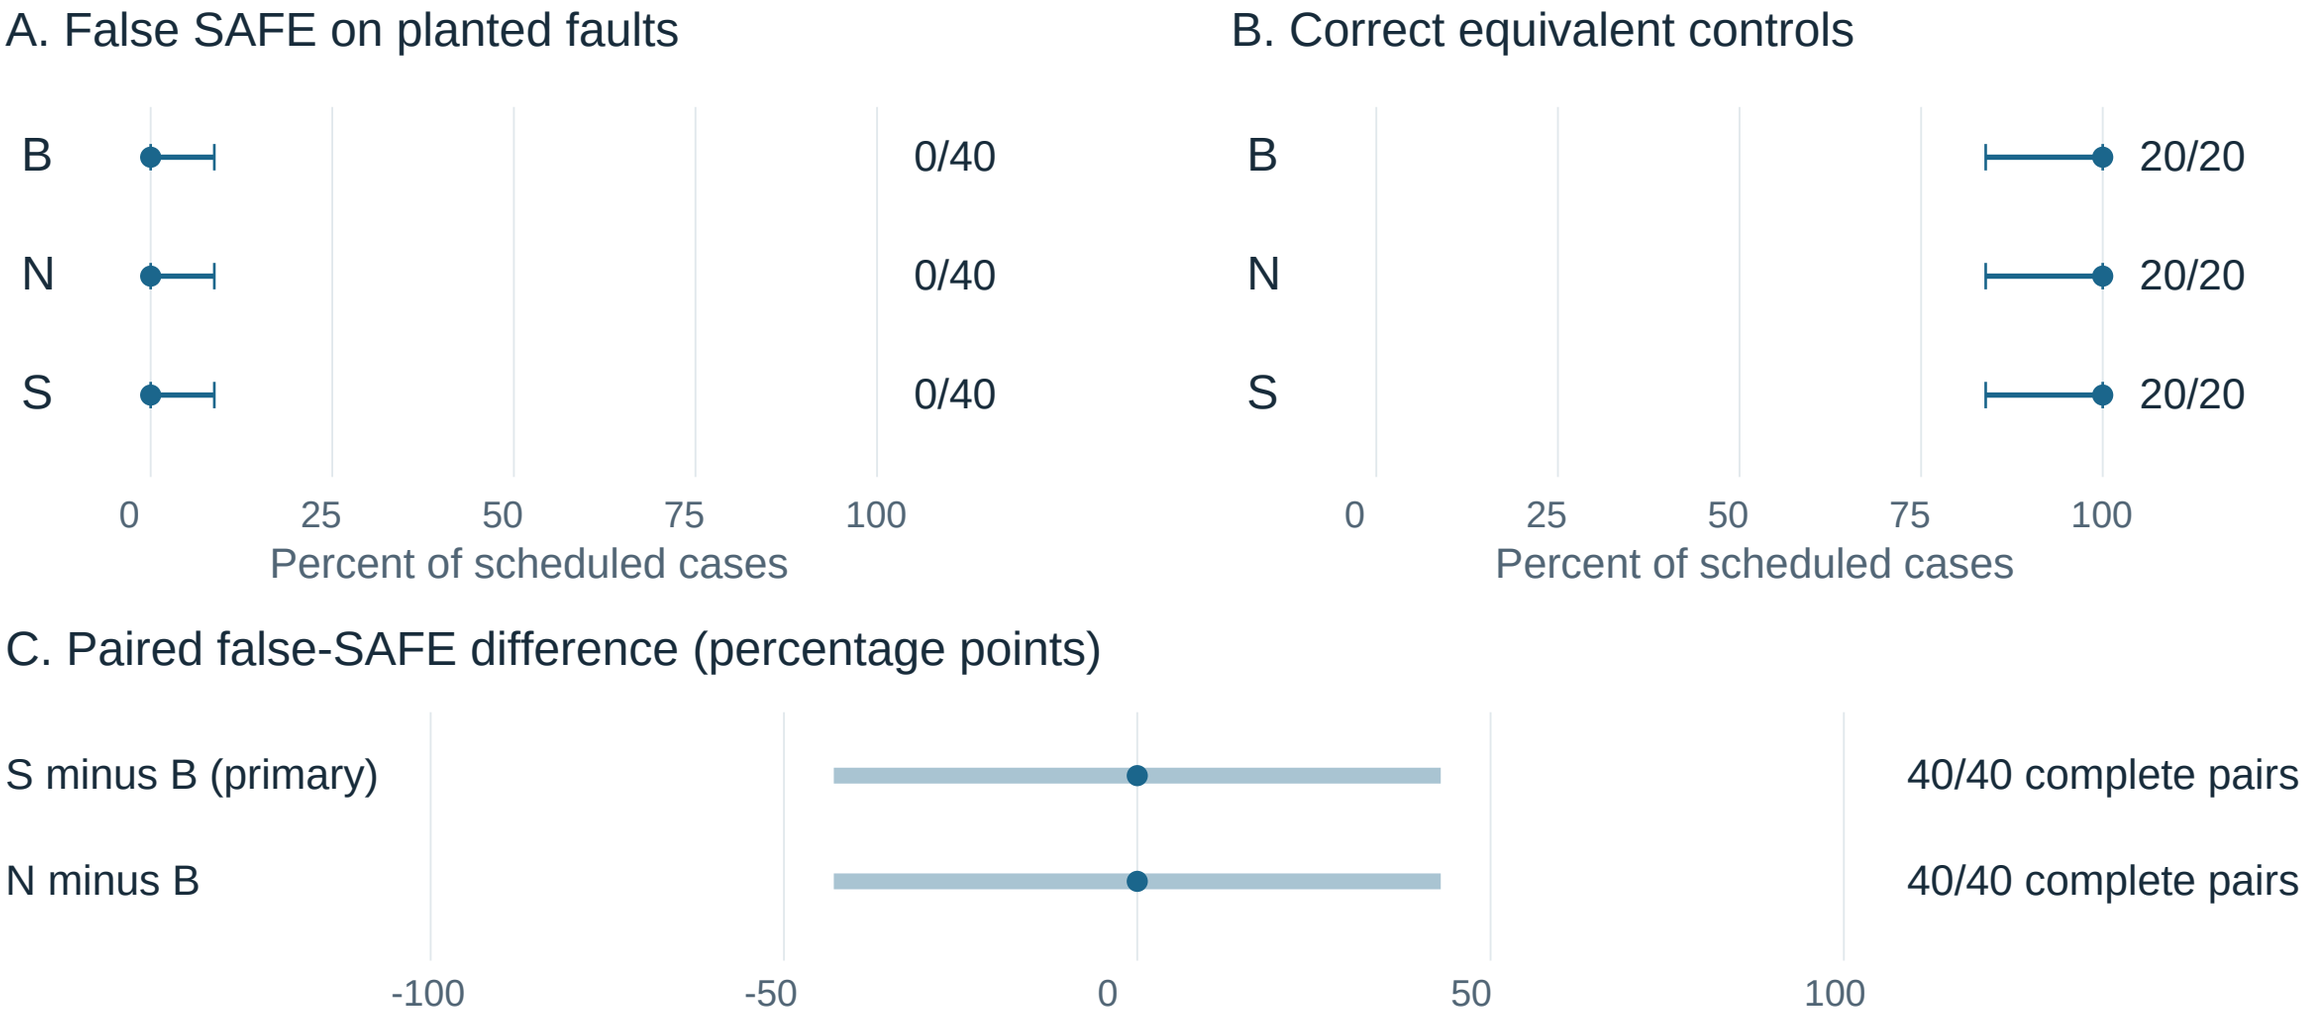
Verified, but What? Certificate scope and useful completion

Held-out evaluation; qwen/qwen3.5-122b-a10b / Alibaba



Natural pipeline: changed C/Q 0/37 valid translations; correct originals 36/40.

A/B: marginal 95% Wilson intervals; pale range in A marks missingness bounds when needed.
C: dark paired bootstrap; pale bounded-iid Hoeffding interval. Shared templates limit inference.
B = PASS; N = neutral; S = explicit scope. All arms see the original task and identical evidence.
